

Acne with Deep Pore Purification

Isōlaz™ for Acne with Deep Pore Purification:

- Painless light-based treatment for acne
- Only FDA system cleared to treat comedonal & pustular acne
- Only System that purifies pores from the dermis outward
- Only System that combines vacuum and broadband light to help destroy acne causing bacteria

Isōlaz also:

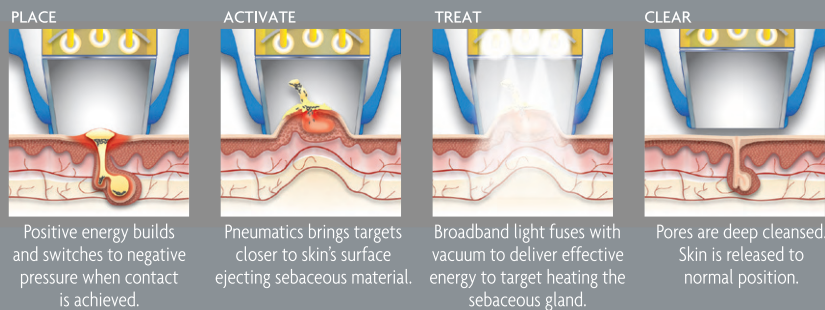

- Helps remove red and brown spots and tiny broken capillaries associated with rosacea
- Is up to 5x more effective
- Is up to 7x faster than traditional technologies
- Requires no pre-treatment and/or topical anesthetics
- Is FDA cleared for the treatment of skin types I-VI

The Isōlaz™ System, powered by Photopneumatic™ technology, harnesses the power of pneumatic energy and broadband light to offer painless treatments for:

- Acne – iAC Therapy
- Skin Rejuvenation – iSR Therapy
- Hair Removal – iHR Therapy

All with Deep Pore Purification

Photopneumatic Mechanism of Action

Clinical Outcomes:

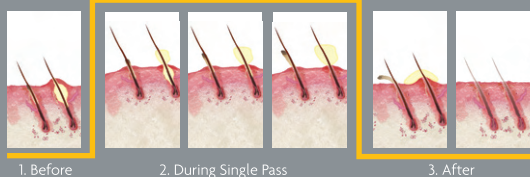

- 88% clearance of papular, pustular, nodular and inflammatory acne ¹
- 64% of non-responders to orals, topical and lasers had over 75% clearance ²
- Immediate drying & flattening of lesion within 24 - 48 hrs post Tx ¹
- Effective on non-responders to traditional therapies ²
- Significant decrease in number, interval & severity of "break-outs" ³
- Decrease in the amount of oil production, starting after the first treatment ³
- Faster resolution of post-lesion erythema ³
- Ancillary benefits include reduction in pore size, improvement in skin texture and tone ³

Isōlaz Technological Advancements

Multi-Pulse Technology (iMP)

Delivers multiple light & vacuum pulses in each cycle.

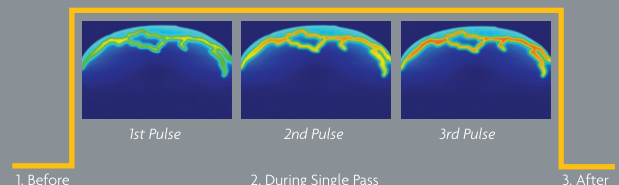

- **Benefits:** Maximum deep pore cleansing and purification
- **Applications:** Acne, skin rejuvenation, vascularity, pigmentation & hair removal, all with deep pore purification

Interpulse Thermal Management Technology (iTm)

Delivers multiple light pulses within a single vacuum cycle.

- **Benefits:** Accumulates up to 5x energy in deep targets while keeping the epidermis cool
- **Applications:** Hair removal, skin rejuvenation, vascularity, pigmentation & acne, all with deep pore purification
